ACADEMIC PROFILE

2024 – 2028 (Pursuing)
B.Tech, Computer Science & Engineering
JECRC University

2023 • 84.00%
HSC (CBSE)
Maheshwari Public School

2021 • 93.50%
SSC (CBSE)
Maheshwari Public School

TECHNICAL SKILLS

Languages

- C / C++
- JavaScript
- SQL
- Python

Frontend

- HTML5, CSS3
- React

Backend

- Node.js, Express.js

Data Analytics

- Power BI, DAX, Power Query

Tools

- Git, GitHub, Figma

PROFESSIONAL SKILLS

- Communication
- Problem Solving
- Team Collaboration
- Analytical Thinking
- Conflict Management
- Time Management
- Adaptability

CERTIFICATIONS & ACHIEVEMENTS

- Smart India Hackathon 2025 – Participant
- Data Analysis & Visualization with Power BI
- Programming with JavaScript
- Crash Course on Python
- Version Control
- Generative AI: Prompt Engineering Basics

LANGUAGES

English, Hindi

Yashvardhan Singh Kothari

B.Tech – Computer Science & Engineering

JECRC University

CAREER OBJECTIVE

Computer Science undergraduate focused on building practical, real-world software solutions through hands-on projects. Interested in Full Stack Development and Data Analytics, with experience developing responsive web applications and interactive Power BI dashboards, and a strong drive to keep learning modern web technologies.

PROJECTS

Portfolio Website [\(GitHub\)](#)

Built a modern, responsive personal portfolio using HTML, CSS and JavaScript, featuring:

- EmailJS-powered contact form
- Fully responsive UI with an animated interface
- One-click resume download
- Deployed live on Netlify

Tech Stack: *HTML • CSS • JavaScript • EmailJS • Netlify*

Spotify Analysis Dashboard [\(GitHub\)](#)

- Designed an interactive Power BI dashboard using Spotify streaming data
- Developed DAX measures and KPIs to surface listening trends
- Built dynamic filters and visual analytics for deeper exploration
- Improved usability with custom, purpose-built layouts

Blinkit Sales Dashboard [\(GitHub\)](#)

- Designed an interactive sales performance dashboard
- Built KPIs tracking revenue, orders, and outlet performance
- Leveraged DAX and Power Query for data modeling and transformation

Loan Analysis Dashboard [\(GitHub\)](#)

- Performed SQL-based analysis of loan application data
- Built a Power BI dashboard to surface loan trends and customer insights

Country Comparison Dashboard [\(GitHub\)](#)

- Compared six countries across Education, Crime, CO₂ Emissions, GDP and Poverty indicators using Power BI
